

Sune Hulbæk Kuntz

Age: 23.

City: 5000, Odense C.

Adress: Christiansgade 73, St. Tv.

Education

University College Lillebælt (UCL) 2017 - 2021

My subjects are *English, Physics/Chemistry, and Biology*. My specialization module was *Technology Understanding*.

Erhvervsakademiet Lillebælt (EAL) 2015 - 2017

I have an Advanced Placement (AP) title in Multimediasign. Through this education I've studied Design, Communication, Interaction and Programming.

H.C Ørsted Gymnasium (HTX) 2012 - 2015

My main subjects were Communication/IT A and English A with Design C, Electrical Engineering A, and Biology B as secondary subjects.

I was also an intern-teacher on several occasions, member of the students council, and a volunteer at open house.

Internship

YFU (Multimediedesigner)

During my education on EAL I was in a 3 month internship at Youth For Understanding. Here I was in charge of graphics design, coding of their webpage, as well as creating teaching material for a workshop that they offer schools all over the country.

Munkebjergskolen

As part of my education on the teachers seminar I have had an internship on Munkebjergskolen in Odense. I taught in the subjects of English and in two 5.grade classes.

About myself

I see myself as a creative, curious, and a quick learner with a great attitude who is always ready to gain new knowledge and skills. I'm also always in the highest gear when it comes to teach in creative, as well as traditionel ways. A love for science, as well as the understanding for the importance of language and communication got me to pursue the job as a teacher.

I am always working on some electronics project in my spare time and I love to read about the newest discoveries in the world of physics, astronomy, and other scientific areas - my first word was even "Moon"
